

REMARKS

Claims 1-16 are pending in the case. Claims 2-8 and 10-16 are allowed. Claims 1 and 9 are objected to because of informalities. In the present submission, claims 1 and 9 have been amended. Reconsideration is respectfully requested.

Applicant has amendment claims 1 and 9 to recite "determining a number of a frame," as required by the Examiner. Passage of the present case to allowance is respectfully requested.

Submission of Formal Drawing Not Acknowledged

Applicant notes that formal drawings for the case were submitted on April 15, 2002, and confirmation of receipt of the formal drawings can be found in the Image File Wrapper of the case on the USPTO PAIR system. However, in the present office action, the Examiner did not acknowledge the formal drawings filed on April 15, 2002, but rather referred to the informal drawings filed with the application on October 19, 2001, which were in fact objected to by the Initial Patent Examination Division as not having the proper margins.

Applicant respectfully requests the Examiner to acknowledge and accept the formal drawings filed on April 15, 2002, and take all steps necessary to ensure that the formal drawings are used for the eventual printing of a patent to be granted from this case.

If the Examiner would like to discuss any aspect of this application, the Examiner is invited to contact the undersigned at (408) 382-0480.
